

End of life and recycling

Environmental responsibility

Nomadstar SA is committed to minimizing the environmental impact of its products throughout their lifecycle.

At the end of its service life, the Meteor Pro must **not be disposed of as household waste**.

WEEE directive

This product is marked with the symbol of a crossed-out wheeled bin in accordance with the European Directive 2012/19/EU (WEEE).

This indicates that electrical and electronic equipment must be collected and recycled separately.

Dispose of the device at an authorized collection point for electronic waste or return it to Nomadstar SARL for proper recycling.

Battery disposal

The internal **Li-ion battery** contains valuable and potentially hazardous materials.

- Do not incinerate, crush, or open the battery.
- Do not dispose of batteries in household waste.
- Hand them over to designated collection facilities or return them with the device to Nomadstar SARL.

Battery specification reminder:

Type: Li-ion 18650 NCR18650BF

Voltage: 3.6 V **Capacity:** 3350 mAh

Disassembly and recycling

Disassembly should only be performed by qualified personnel.

It involves removal of the enclosure screws, detachment of the PCB, and safe extraction of the battery.

Recycling should follow the applicable local regulations for electronic assemblies, aluminum housings, and lithium-based cells.

Disposal declaration

Improper disposal of this product or its battery may cause environmental harm or violate local regulations.

Please follow local recycling programs or contact Nomadstar SA for assistance with responsible disposal.
